Small Vessel Cauterizer Kit

This small wireless cauterizer keeps bleeding to a minimum, providing a surgical field clear of clamps and hemostats. Temperature at the tips is approximately 1000C. The unit should be activated only momentarily so the delicate tips to not burn out. Replacement cautery tips are available. Remove batteries before autoclaving. Kit includes: 1 Cautery Handle 1 Straight Fine Tip 1 Angled Fine Tip 2 AA Batteries 1 Storage Case
