

SuperGrip tips are processed with MicroCrystals, a method developed by S&T to infuse tungsten carbide on stainless steel. The formation of this ultra-fine coating guarantees atraumatic handling of tissue while improving the grip dramatically. The gripping surface is similar to a match head. Recommended when forceps are utilized as needle holders or when slippery tissues might be encountered.

General Info

Product Number	00649-11
Category	Forceps & Tweezers > Smooth
EAN	4251909500160
