Vascular Catheterization Surgical Kit - For models up to 100g

This surgical kit is designed for performing vascular catheterization procedures on models 100g commonly used in biomedical research. It contains all the necessary instruments to conduct precise and delicate surgeries with ease especially implanting Vascular Access Buttons™ by Instech Laboratories. Fine Science Tools highly recommends Instech's revolutionary Vascular Access Buttons™ featuring PinPort™ technology that simply and cleanly connects an implanted catheter to a syringe for direct access, or to a tether for continuous access. An industry leading refinement over many other methods of vascular access, Instech Laboratories is quickly becoming the preferred method of catheter exteriorization.

Content of kit:
1 x Grooved Director with Tongue, 13 cm [10290-13]
2 x Graefe Forceps - Serrated/Curved/10cm [11051-10]
1 x Extra Fine Graefe Forceps - 1x2 Teeth/Slightly Curved/10cm [11154-10]
1 x Dumont 545 Forceps - Micro-Blunted Standard Tips/Angled 45°/Inox/11cm [11253-25]
2 x Moria MC31B Iris Forceps - Smooth/Curved/10cm [11373-12]
1 x Kalt Needle Holder, straight, 13.5cm, cross-serrated and serrated [12080-14]
1 x Micro-Mosquito Hemostat - Serrated/Straight/12cm [13010-12]
1 x Fine Scissors - Straight/Sharp-Sharp/9cm [14060-09]
1 x Fine Scissors - Extra Large Loops/Straight/Sharp-Sharp/9.5cm [14106-09]
1 x Vannas-Tübingen Spring Scissors - Angled Up/Sharp/9.5cm/5mm Cutting Edge [15005-08]
1 x Suture Thread - Braided Silk/Size 6/0 [18020-60]
1 x Schwartz Micro Serrefine - Light Bend/26mm [18052-02]
1 x Absorption Spears - Mounted/Sterile [18105-01]
1 x Magnetic Fixator Retraction System - Elastomer [18200-07]
1 x Magnetic Fixator Retraction System - Blunt Retractors/2.5mm Wide [18200-10]
1 x Plastic Sterilization Container-Single Tier - 25 x 15 x 2cm [20840-03]
1 x Instrument Tip Protectors - Assorted Pack [29060-00]

General Info

Product Number	70003-01
Category	Kits
EAN	4251909511708
