

Slim High Precision Tungsten Carbide Cutter - Large, Tapered

The high precision cutter belonging to the large tungsten carbide cutters family. The tapered geometry facilitates the tips access to the working area, while the head dimensions support the cut. The short blade length transmits the operator's full cutting force. The flush cutting edge is suitable for perform clean cuts on the hardest wires. The cutter is equipped with an ESD ergonomic slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The tungsten carbide insert blades are hardened to 82HRC. Handle material: Ergonomic Slim - Thermoplastic and Elastomer + PP compound

General Info

Product Number	16952-11
Category	Cutters > Industrial MedTech Line
EAN	4251909512071
