

Slim High Precision Tungsten Carbide Cutter - Small, Tapered & Relieved

High precision cutter belonging to the small tungsten carbide cutters family. The tapered and relieved geometry combined with the head dimensions offer the best advantage to access small areas and to support tip cuts. The full-flush cutting edge is suitable to perform very clean cuts on the hardest wires. The cutter is equipped with an ESD ergonomic slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The tungsten carbide insert blades are hardened to 82HRC. Handle material: Ergonomic Slim - Thermoplastic Elastomer + PP compound

General Info

Product Number	16953-12
Category	Cutters > Industrial MedTech Line
EAN	4251909512088
