Self-Tapping Bone Screws - 4.8mm/100 screws/1.19mm Shaft Diameter

These screws have been found to hold better than ordinary machine screws. They have a fillister flat head and are ideal for anchoring dental cement to bone. Use our 0.9mm burrs No. 19007-09 for pre-drilling the 1.19mm No. 19010-00 screws.
